PROFILE SUMMARY

Results-driven Business Intelligence, Analytics, and AI professional with hands-on experience in Power BI, Tableau, SQL, Python, and full-stack development. IBM-certified across Data Analysis, Business Analysis, and Generative AI. Proven track record converting messy business data into automated dashboards and decision tools — from corporate KPI reporting at Cognifyz Technologies to independently designing, building, and shipping **FitFuel AI Guru**, a live production AI application, entirely solo. Now working as an independent Data & AI Solutions Consultant, delivering fixed-price BI dashboards, predictive ML models, and full-stack AI apps for clients in India and internationally.

WORK EXPERIENCE

Independent Data & AI Solutions Consultant — **Freelance / Self-Employed**

2026 — Present

- Designed, built, and shipped **FitFuel AI Guru** end-to-end — a live full-stack AI fitness & nutrition coaching app, solo, from concept to production.
- Deliver fixed-price BI dashboards, ML integrations, web/mobile app development, and UI/UX design for freelance clients.
- Built and maintain a multi-page consulting portfolio and client intake system with integrated payments and case-study driven positioning.

Junior Data Analyst — **Cognifyz Technologies**

1+ Years

- Developed Tableau and Power BI dashboards to deliver actionable BI insights and support business reporting.
- Built and maintained ETL pipelines to extract, transform, and load data from multiple sources into analysis-ready formats.
- Performed EDA and statistical analysis using Python (Pandas, NumPy, Matplotlib) to identify key business trends.
- Conducted A/B testing and predictive modelling to validate analytical solutions and improve decision-making.
- Collaborated with cross-functional stakeholders to translate business requirements into analytical solutions.

Seller Account Manager (BPO) — **Startek**

6 Months

- Managed seller accounts and delivered KPI-driven performance reports to stakeholders.
- Leveraged data analysis to identify account trends and recommend business improvement strategies.
- Ensured SLA compliance through agile coordination across geographically dispersed teams.

Computer Science Teacher — **Vishal International School**

2 Years

- Taught Python, SQL, Data Structures, and analytical problem-solving to senior secondary students (100+ students total).
- Guided project-based learning, fostering analytical thinking and collaborative problem-solving skills.

FLAGSHIP PROJECT

FitFuel AI Guru — AI Fitness & Nutrition Coach

LIVE PRODUCT · SELF-BUILT

A full-stack AI web app designed, built, and shipped end-to-end — not a tutorial clone. Delivers AI-generated meal plans, live macro/calorie tracking, and a conversational nutrition coach that adapts guidance to each user's goals. Built with React, TypeScript, Tailwind CSS, Supabase, and LLM integration.

fitfuel-ai-guru.lovable.app — live, publicly accessible

ADDITIONAL PROJECTS (GITHUB)

Netflix Content Analysis — BI Dashboard

End-to-end BI solution: ETL pipeline + Power BI/Tableau dashboard tracking content KPIs, genre trends, and regional

Customer RFM Analysis

RFM (Recency, Frequency, Monetary) segmentation model automatically ranking and flagging high-value vs. at-risk

distribution.
Python · SQL · Power BI · Tableau · ETL
[github.com/.../Netflix-Content-Analysis-PowerBI](#)

Diabetes Risk Detection

Multilayer Perceptron (MLP) neural network predicting diabetes risk directly from patient health data.
Python · Deep Learning · Healthcare AI
[github.com/.../Diabaties-detection](#)

AI Chatbot — Intent Recognition

NLP-powered chatbot with intent recognition and dialogue management for first-contact customer automation.
Python · NLP · Chatbot Design
[github.com/.../Inuit-Chatbot-Assignment](#)

customers.
Python · Pandas · Scikit-learn · Matplotlib
[github.com/.../Customer-RFM-Analysis](#)

Music Recommendation System

Collaborative/content-based filtering engine suggesting songs from real listening patterns and song features.
Python · Pandas · Matplotlib
[github.com/.../Music-recommendation-system](#)

Advanced Excel Business Analytics

Power Query + Pivot Table + dynamic chart system for MIS reporting — turning manual reports into few-click refreshes.
Excel · Power Query · DAX
[github.com/.../Excel-project](#)

TECHNICAL SKILLS

Data Analytics & Visualization

Power BI (DAX), Tableau, SQL, Advanced Excel, Data Storytelling, Dashboard Design

Web & API Engineering

React, JavaScript, HTML/CSS, Node.js, REST APIs, Figma / UI-UX Design

Analytics & Testing

Statistical Analysis, KPI Reporting, A/B Testing, EDA

Machine Learning & AI

Python, Pandas, NumPy, Scikit-learn, Deep Learning, Generative AI, NLP, Predictive Modelling

Automation & Data Engineering

ETL, Data Warehousing, Data Integration, Git/GitHub, MongoDB, Firebase, Supabase

Productivity & Process

MS Office Suite, Agile Methodology, R (basic)

CERTIFICATIONS

Data Analyst Professional Certificate

Career247 in collaboration with IBM

Business Analyst Certificate
